

Instant Ink Card Game Rules (for the Base Set)

The goal of the Instant Ink Card Game is to maximize your savings! You will earn saving points when you acquire a printer, enroll for an Instant Ink plan and then start printing multiple Printing Jobs! The game with the Base Set consists of 59 playable cards and is supposed to be played by one player only!

The game is played for 4 months, with 4 weeks each month (each week is a turn). You will try to maximize the amount of saving points received at the end of the game.

Components:

You will need to have tokens (or pen and paper) to keep track of how many Pages you have (your Page Count, which is always a multiple of 5), the amount of money spent (you spend money with the Printer, the Plans and eventual extra pages you need) and the current Ink Level (from 0 to 120, multiple of 10). You will also need to keep track of the turn count (4 months, 4 weeks per month).

Setup:

To setup a solo game using the Base Set, create a playing Deck shuffling all 30 Printing Job cards (the blue ones), the 16 Event cards (the orange ones) and the 4 Enrollment Cards (the yellow ones). Set aside all 4 Printers (gray cards), all 4 Plans (purple cards) and the Replace Cartridge card (the green card).

Draw 5 cards to form your starting playing hand. Then, choose an Instant Ink printer to buy. Each printer has a different Cost and the maximum Ink Level that this printer's cartridges support. Next, choose an Instant Ink plan. Each Instant Ink plan has a monthly Page Count that you earn at the beginning of every month (the gray box), a monthly Cost (the salmon box) and the number of extra Pages that you can buy whenever you want at the cost of \$1 (the pink box).

Flow of Play:

At the beginning of each of the 4 months, pay your current plan fee, then add the Page Count of your plan to your Page Count tracker. You can never exceed twice your current Plan Page Count (discard any exceeding Pages).

You will start every week by drawing a card from your Deck. Then, you have two options:

- Play a Replace Cartridge card.
- In this exact order (the three actions are optional), you MAY play 1 Enrollment card, then you MAY plan 1 Event card, then you MAY play a Printing Job.

After playing 4 weeks, if you have less than 5 cards in your hand, draw cards until you have 5 cards. Then, advance to the next month. You keep any unused Pages from your Page Count. You can buy extra Pages at your current Plan rate at any time (always respecting the 2x Page Count limit).

Card Details:

When you play a card from your hand, put it in a discard pile if it is an Enrollment or an Event card, and put it on a Printed Jobs pile whenever you play a Printing Job.

Some Events or Enrollment Cards may alter your turn structure. Whenever a card text contradicts the rules, follow the card instructions (example: the 'Ink Savings' event on Base Set allows you to play a Replace Cartridge card while still being able to play a Printing Job at the same week!)

Usually, the only way to change Plans is through playing an Enrollment Card. Enrollment Cards always present you with multiple options. Choose one and only one when playing this

card, then place it at the discard pile as usual.

End of Game:

The game ends after four months. Sum all your saving points earned from the Printed Jobs pile, then subtract all your expenses (the monthly fee from Plans, the cost of the Printer and any money you may have spent with extra Pages or other card effects). Try to maximize your savings!

Duelist Set New Rules

The new Duelist Set expands the Instant Ink Card Game and allows for a 2-Player competitive experience! This new set adds 61 cards to the Base Set game.

Each player will have a Deck that will mix cards from both Base Set and Duelist Set. This is also a Shared Deck, that can be used by both players.

Setup:

Take all 40 cards from the Duelist Set that are marked as Shared Deck and create a Shared Deck by shuffling these cards (there will be 30 Printing Jobs, 3 Enrollment cards and 7 Event cards in this deck).

Each player Deck will have 15 random Printing Job cards from the Base Set, 1 of each Event card from the Base Set (with no repeating cards) and 2 Enrollment cards from the Base Set. Add 3 of the new Event cards from the Duelist Set (again, no repetitions) and 2 of the new Enrollment Cards to each player Deck (yielding a total amount of 30 cards per player Deck).

Give each player their own Replace Cartridge and Plan cards. Then, reveal the top 5 cards from the Shared Deck and let them visible in the playing area. This bank of 5 cards is the Shared Resources area. Every time a player takes a card from these Shared Resources, immediately draw a new card from the Shared Deck and add it to the Shared Resources.

Take all Goal Cards (the brown ones), and randomly reveal 3 of them, then discard the rest. These 3 cards are the Common Goals, which will give extra points at the end of the game to the player who fulfills its conditions. In case of a tie, no player gets these cards at the end of the game. The Common Goals remain visible to both players during a match.

Give the First Player card to the player who most recently printed something. He or she must choose a Printer, then the other player chooses another Printer from the remaining ones. The second player chooses then a Plan, followed by the first player. The players, starting with the First Player, will alternately play turns every week (each player will still play 16 turns in the game). The first player plays each week of the first month before the second player. Alternate the first player every month (each player will be the first player for two months).

Changes in Game Play:

The game flows as per the Base Set rules. However, at the beginning of the week, a player may opt to draw a card from the visible Shared Resources INSTEAD of drawing it from the top of his or her player Deck.

Also, when a card instructs you to take a specific type of card from the Deck or your discard pile to your hand, show it to the other player before adding it to your hand.

End of Game:

The game ends after four months. Calculate your score as per the base rules. Give the corresponding Common Goals cards to the players that earned them and add the saving points to the player score. The player who scores the most saving points wins!

37/61

Environmental

If your Ink Level is lower than the other player's Ink Level, you may play a Replace Cartridge right now and still play a Printing Job.

SHARED DECK

© 2018 Bruno Guedes

38/61

Maintenance

The other player cannot play a Printing Job during his or her next week.

Shuffle this card with the Shared Deck instead of putting it on your discard pile.

Replace Cartridge PSI

You cannot play an Event or a Printing Job this week.

Replace a cartridge in your printer, filling the Ink Level to the maximum amount according to your Printer. Place this card back in the board after playing it (you never run out of ink!)
